Jakarta, Indonesia · 0821-2523-0439 · Kurniawan.ferry.rach@gmail.com · [LinkedIn](#) · [GitHub](#) · [Portfolio](#)

PROFILE

Bachelor of Computer Engineering graduate from Bina Nusantara University, specializing in Flutter-based cross-platform mobile development. Experienced in building production-ready Android and iOS applications with REST APIs, real-time data, and cloud integrations. Proficient in state management (Bloc, GetX), clean architecture, and FCM notifications. Adept at collaborating in agile teams and delivering scalable mobile solutions that interface seamlessly with IoT hardware and backend systems.

EDUCATION

Bina Nusantara University 2022 – 2026
Bachelor of Computer Engineering · GPA 3.26 · *Finalist Gemastik 2025* · *Top 50 APAC Google Solution Challenge 2025* · *Special Winner Binus IoT Expo 2024* · *Best Microcontroller Final Project*

EXPERIENCE

Zegen Solusi Mandiri | Mobile Programmer – Internship Feb 2025 – Jul 2025

- Engineered 2+ cross-platform mobile applications for Android and iOS using Flutter, contributing to a live production codebase with real users.
- Shipped 10+ features and resolved critical bugs across multiple sprints, measurably improving app stability and performance metrics.
- Partnered with cross-functional teams to maintain 100% on-time feature delivery across all sprint cycles.

PROJECTS

Smart Medicine Dispenser → Minder | Full Stack Developer [\[GitHub\]](#)
Tech: Flutter, Gin/Go, Azure, ESP32, Arduino, FCM, MQTT, REST API

- Architected a Flutter mobile app integrated with IoT hardware and Azure cloud, enabling automated medicine dispensing and real-time caregiver monitoring.
- Engineered real-time MQTT communication between the mobile app, Go server, and ESP32 hardware, achieving sub-second device response times.
- Evolved the system into Minder by migrating the backend from Laravel to Gin/Go — improving scalability — and enhancing the notification system via FCM for scheduled and emergency alerts.
- Delivered 5+ core features including dosage scheduling, live dispensing control, caregiver dashboards, and real-time push notifications.

LEADERSHIP & ORGANIZATION

Bina Nusantara English Club (BNEC)

- Manager of IT (2024): Revamped the official website and digital platforms, spearheaded web development training for 20+ internal staff members.
- Vice Project Operational, New Member Recruitment (2023): Directed 2 divisions to execute a large-scale campaign across 4 events, digitizing the registration workflow.

TECHNICAL SKILLS

Mobile: Flutter · Dart · Bloc · GetX **Backend:** Gin/Go · Laravel · PHP · REST API **Hardware:** ESP32 · Arduino · C/C++
Cloud & Tools: Firebase · Azure · MQTT · FCM · Git **Soft Skills:** Leadership · Agile Teamwork · Analytical Thinking · Adaptability
